

## **JOIN THE AUXILIARY**

No one gets by on his or her own - especially during osteopathic medical school and residency - which is why the Auxiliary to the ACOFP was formed. Spouses and significant others of osteopathic physicians have joined together with a mission to support those just starting out in family medicine. To date, about 3,200 men and women are actively participating in the Auxiliary by raising money through dues, drawings, sponsorships and direct donations.

The mission of the Auxiliary to the American College of Osteopathic Family Physicians is to promote and support public health and educational activities in national and community health endeavors.
